

BUILD SUMMIT – 26 AND 27 JUNE, AUCKLAND

The Build Summit [26-27 June 2017], developed with extensive research, focuses on the issues facing the building industry today. **Co-located with the buildnz | designex expo, the summit is two comprehensive days.** It includes innovative case studies, panel discussions with property developers and council consent team leaders, along with highlighting new technology that is impacting the construction sector.

Themes include:

- * Key updates and issues for the construction sector
- * Legislation and requirements (in plain English!)
 - * Quality control for construction
- * Driving efficiency within the building supply chain
